NOMINATION OF AN INSTITUTION TO SERVE AS STOCKHOLM CONVENTION REGIONAL OR SUBREGIONAL CENTRES FOR CAPACITY BUILDING AND TRANSFER OF TECHNOLOGY

At its third meeting the Conference of the Parties of the Stockholm Convention on Persistent Organic Pollutants adopted decision SC-3/12 terms of reference for the selection of the regional and subregional centres for capacity-building and transfer of environmentally sound technologies under the Convention. The following is the process for nominating regional and subregional centres for capacity building and the transfer of environmentally sound technology as set forth in paragraph 5 of the annex to decision SC- 3/12.

- a. “ Each of the United Nations regions will nominate, as soon as practicable, institutions from within the region which are willing to serve as regional and/or subregional centres to provide technical assistance and promote the transfer of technology to developing countries and countries with economies in transition. Such institutions shall be known as “nominated Stockholm Convention Centres.” The nominations should take into account, inter alia:
 - (i) The ability of such institutions to fulfil the technical assistance and technology transfer needs and priorities identified in the annex to decision SC-1/15;
 - (ii) Compliance with the terms of reference for the centres set forth in annex I of decision SC-2/9;
 - (iii) The promotion of efficiency and effective use of resources;
 - (iv) The need for enhanced cooperation and coordination among existing centres in the area of chemicals management;
- b. The Basel Convention regional centres, as well as other existing institutions within the chemicals and waste cluster, may be encouraged to serve as regional and subregional centres for capacity-building and the transfer of technology under the Stockholm Convention;
- c. The secretariat will verify in consultation with the bureau that the nominated Stockholm Convention centres meet the criteria contained in decisions SC-1/15 and SC-2/9;
- d. Each nominated Stockholm Convention centre may develop a work plan through a process of regional or subregional consultation;
- e. Each of the nominated Stockholm Convention centres will, in consultation with stakeholders, develop project proposals for submission to the financial mechanism and other potential sources of assistance. Such project proposals shall include the following elements:
 - (i) A full project proposal with objectives, a work plan, a budget, a description of the intended geographical scope and an evaluation plan, which should be consistent with the guidance to the financial mechanism adopted by the Conference of the Parties;
 - (ii) Relevant endorsement letters from eligible Parties included in the project;
 - (iii) Information concerning any sources for financing of the project and, where relevant, letters pledging such support;

- f. In accordance with the eligibility criteria in decision SC-1/9, support from the Global Environment Facility for projects proposed by developing countries or countries with economies in transition in collaboration with nominated Stockholm Convention centres located in developed countries would be limited to activities undertaken within developing countries and countries with economies in transition, with the objective of building institutional capacity in order to facilitate regional/sub-regional institutional ownership;
- g. At its next meeting, the Conference of the Parties will consider the endorsement of the nominated Stockholm Convention centres as Stockholm Convention regional or sub-regional centres;
- h. Without prejudice to future decisions, the process of nominating centres to serve as regional and subregional centres for capacity-building and the transfer of environmentally sound technology under the Stockholm Convention may be facilitated by the Secretariat as appropriate and will be done within existing budgetary resources.”

In accordance with decision SC-3/12 all nominated Stockholm Convention Centres are requested to submit, using the attached format, a report which explains the status and components set forth in decision SC-2/9 and the annex to that decision. Completed forms and any additional relevant information should be sent to:
